Custom-made Flat Knit compression garments for
Upper and Lower Extremities

JOBST® Elvarex® Soft & Elvarex® Soft Seamless

As experts in the field of lymphology, we developed JOBST® Elvarex® Soft and Elvarex® Soft Seamless custom-made for lower and upper extremities. These soft, flat-knit compression garments are the ideal additions to the JOBST® Elvarex® product assortment, particularly well-suited for patients with mild to moderate Lymphedema.

Living with lymphedema the skin-friendly way.

The unique, knitted fabric is made of soft textured yarn to create an extremely smooth fabric surface. This specialized yarn combines skin-protecting softness and excellent breathability. These garments are particularly well-suited for patients who suffer from dry, sensitive or fragile skin.

Living with lymphedema the easy way.

These Latex-free garments are very comfortable to wear, as well as easy to don. Additionally, comparative product testing* proves that JOBST® Elvarex® Soft is easier to put on than other brands of compression garments.

Living with lymphedema the comfortable way.

JOBST® Elvarex® Soft and Soft Seamless ensure anatomically correct fit to maximize therapy without rolling down or digging into the skin. Additionally, JOBST® Elvarex® Soft garments are available with silicone bands for additional garment grip. All garments provide optimum hold during movement to further enhance comfort.

Living with lymphedema the efficient way.

These compression garments combine easy donning with proven medical efficacy. JOBST® Elvarex® Soft and Soft Seamless offer optimum efficacy in the treatment of mild to moderate lymphedema, as it combines the right compression with the correct level of fabric stiffness. Both are extremely comfortable, effective, and easy to wear.

* Laboratory test results illustrate a product's performance under controlled conditions. Results in actual use may vary. These results were from a competitive test of garments for lower extremities. Conducted by BSN-JOBST, data available at request.

JOBST® Elvarex® Soft Armsleeve

Silicone Dotted Band Available

Comfort zone at the wrist

- Specially designed comfort zone for optimally comfortable edging.
- Does not roll or constrict at the wrist.
- Designed to be also worn in conjunction with Elvarex® Soft Seamless compression glove.

Anatomically shaped upper arm using 3-D knit technology

- Provides a perfect fit that doesn't slide down the arm.
- Optimum hold during movement, enhances comfort.

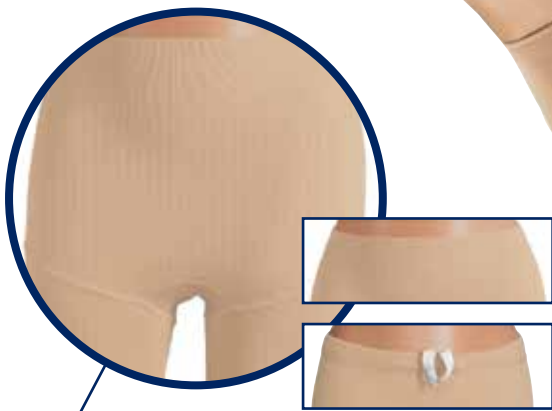

Optimum elbow construction

- Anatomically correct fit and shape - important for the sensitive area as it reduces material folding during movement.
- Reduces constriction and guarantees comfort while wearing.

JOBST® Elvarex® Soft

Lower Extremity

The edging seam at the top of stocking has been designed for increased comfort on the skin, while holding the garment in place.

The panty has been designed for increased all-day wearing comfort with the options of either a ribbed flat band at the waist or an adjustable waistband.

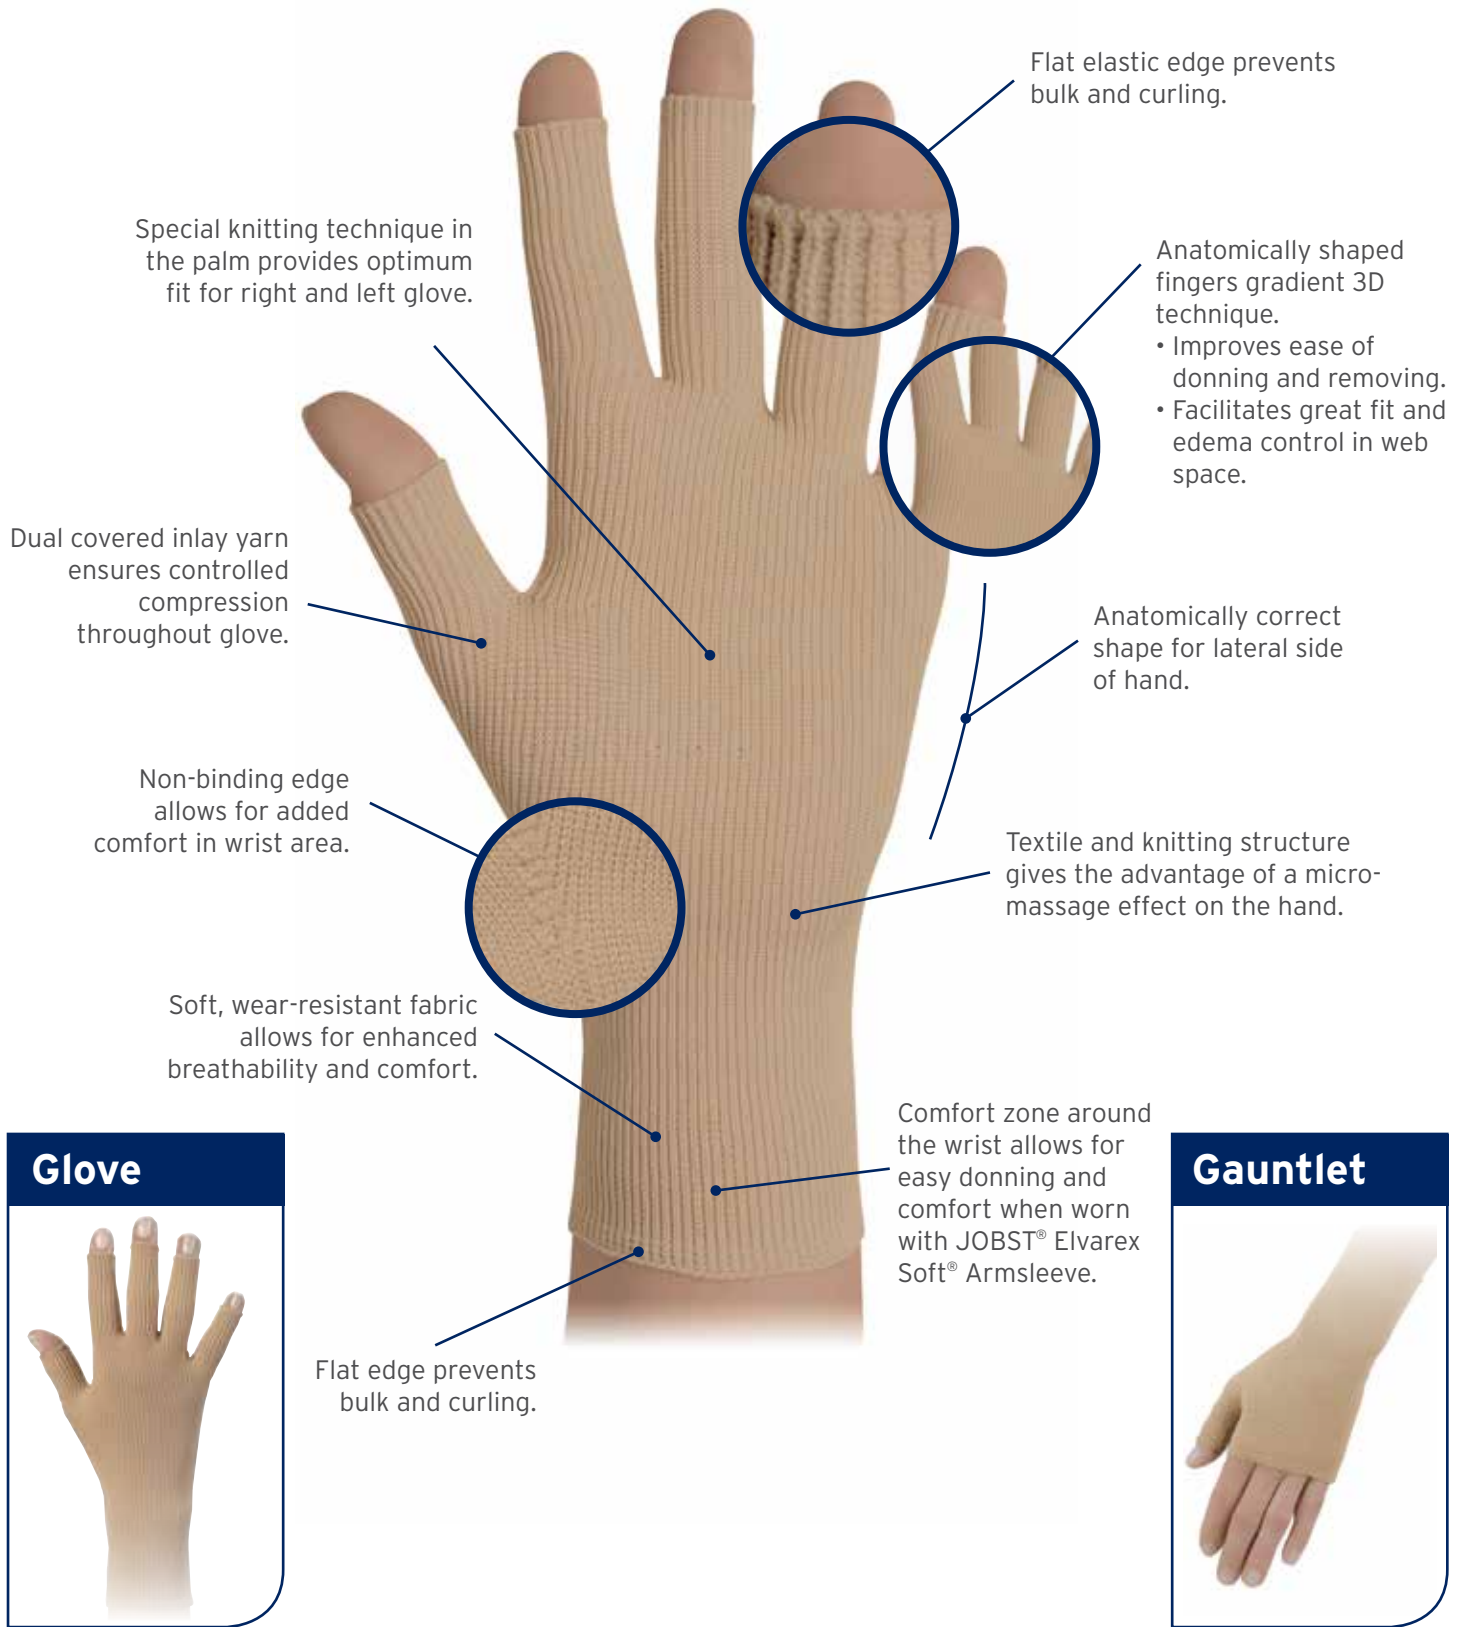

Anatomically correct shaped heel designed for increased durability and fit. For added comfort and less constriction in ankle area, T-heel option now available for CCL 1 through CC 3.

The specially-designed edging of the foot garment ensures the stocking will stay in place without rolling.
