

LymphaTech

A New Best Practice for Quick, Accurate, & Reliable Measurement

What Does it Do?

Easily-obtainable trustworthy measurements for enhanced patient evaluation and tracking. LymphaTech's mobile 3D imaging solution provides **circumference and volume measurements in less than 2 minutes, saving time for more patient care and education.**

How Will This Help Enhance Care?

- Intelligent measurements linked to the patients' unique geometry provide a **customized anatomical assessment**
- Easily view the **progression of measurements over time** and compare changes in local and regional geometries
- **Very low inter-operator variability** allows many different users to acquire patient measurements with confidence
- Automatic generation of a **custom measurement report** for easy recording

Measure the Impact

Capture & measure exact shape of limbs to enable the most effective assessment

99%

Measurement Accuracy validated by research conducted by 3rd party industry experts

Optimize Patient Care

Simplified measurement means more time for treatment

Drive Clinical Value

Provide an enhanced quality of care, attract new clients, and automate reporting

Start Using LymphaTech

- 1 **Email** sales@lymphatechnology.com
- 2 **Sign up** for an annual subscription
- 3 **Download** the LymphaTech App
- 4 **Start** taking quick & accurate measurements
