

The logo for JOBST, featuring the brand name in a white serif font on a dark blue rectangular background with a white leaf-like symbol to the right.

JOBST®

A photograph of three women sitting at a dark wood table in a cafe. The woman on the left is a young woman with long dark hair, wearing a maroon dress and light-colored compression stockings. The woman in the middle is a young woman with long blonde hair, wearing a white top and black skirt. The woman on the right is an older woman with short grey hair, wearing a purple t-shirt and dark pants, and is wearing a white compression sleeve on her left arm. They are all smiling and talking. The table has coffee cups, plates of food, and a small vase with flowers. The background shows a cafe interior with a bar and shelves.

# Why JOBST®?

## Trust, confidence and history

- JOBST® is the #1 physician-recommended brand of medical compression legwear for the prevention, treatment and management of venous and lymphatic conditions.
- Conrad Jobst, mechanical engineer and industry pioneer, dedicated his life and expertise to inventing graduated compression garments in 1950.
- After his passing, Conrad's wife Carolyn, assumed the presidency of the company for the next 27 years. Inspired by her late husband's legacy, Carolyn grew the business into a global organization and extended sales to virtually every continent as the JOBST® reputation for quality grew.

## Innovation

- JOBST® incorporates customer and healthcare professional involvement in the development of products. From focus groups to wash-and-wear tests, all garments go through a rigorous design process that ensures they provide the highest efficacy, safety, and satisfaction for our customers.
- Innovation is at the heart of our product excellence. Product development efforts are directed towards delivering the highest quality product with the highest assurance of medical efficacy.

## Partnerships

- JOBST® is an exclusive sponsor of the JOBST® Research Grant in Venous and Lymphatic Diseases in association with the American Venous Forum Foundation.
- JOBST® supports the National Lymphedema Network and Lymphatic Education and Research Network.
- Key JOBST® stakeholders are part of the Lymphedema Advocacy Group. Their mission is to advocate for improved insurance coverage for the diagnosis and treatment of the disease.
- We are proud to have partnered with NASA to develop compression garments for astronauts for their space missions.

## Education

- JOBST® Compression Institute serves as a valuable resource for fitters, clinicians, healthcare providers and caregivers interested in learning more about compression therapy and lymphatic and venous disorders.
- Our product experts, called Medical Education Advisors, and our devoted team of Sales Professionals, provide customized education and solutions for both fitters and therapists.

## Social Responsibility

- Every year, JOBST® donates hundreds of compression garments to healthcare organizations who share our mission to help improve patient quality of life. Whether it is through programs like the Marilyn Westbrook Garment Fund or helping those recover after a devastating natural disaster, JOBST® does not hesitate to lend a helping hand.

# Advanced Wound Care Products

Cutimed offers a wide range of advanced wound care products for a variety of wound phases and exudate levels that result in effective wound healing.

## Cutimed® Siltec®

For managing low to moderate levels of exudate

Cutimed® Siltec® has been designed for non-interrupted wound healing and safe fluid handling.

- Gentle adhesive silicone wound contact layer provides protection of fragile new tissue
- Absorb and retain fluid even under compression

## Cutimed® Siltec® Sorbact®

For removing infection and exudate

Cutimed® Siltec Sorbact® is an innovated combination of absorption and infection management. The super-absorbent particles within the foam layer effectively adjust to absorb moderate to high, viscous exudate and retain it even under compression.

- No known side effects with Sorbact® bacteria binding technology
- Increased absorption due to super-absorbent hot-melt stripes

## Cutimed® Sorbion®

For managing moderate to high levels of exudate

Cutimed® Sorbion® is a line of super-absorbent dressings that absorbs and retains exudate to support a moist healing environment, even under pressure.

- Sorbion Sana helps protect healthy and sensitive tissue
- Sorbion Sachet® provides soft debridement for wound bed preparation

## Cutimed® Sorbion® Sorbact®

For removing bacteria and high levels of exudate

Cutimed® Sorbion® Sorbact® consists of a Wound Contact Layer coated with Sorbact® Technology that safely and effectively binds bacteria without using chemicals.

- The super-absorbent core absorbs and retains moderate to high levels of exudate
- Reduces the risk of maceration even under compression

# Compression Bandages

A complete range of bandage products for the management of lymphedema. Designed with the patient and therapist in mind for optimal Complete Decongestive Therapy (CDT) outcomes.

## Multi-Layer Bandaging

### Comprilan®

Short stretch compression bandage

- 100% cotton
- Provides high working pressure and low resting pressure
- Easy care and durable

### Tricofix®

Lightweight absorbent stockinette

- Used underneath Comprilan to provide a smooth layer
- Breathable

### Elastomull®

Soft comfortable bandage

- Provides light compression
- Ideal for fingers and toes
- Available in sterile or non-sterile

### Isoband®

Elastic multipurpose bandage

- Short stretch with longitudinal elasticity for high working pressure
- Reusable
- Breathable

### CompriFoam®

Open cell foam bandage

- 100% polyurethane
- Air and moisture permeable
- Reusable

### Artiflex®

Non-woven padding bandage

- Used underneath Comprilan to help protect sensitive skin
- Provides padding around bony or irregular shapes and ensure even distribution of pressure
- Air permeable, non-absorbent

### JOBST® foam

Kidney shaped foam pad

- 100% synthetic rubber
- Evenly distributes pressure
- Reusable

## JOBST® Compriz

### 2-Layer Bandaging

The JOBST® Compriz is a 2-Layer Bandage System specifically designed for easy application. It provides graduated and reliable compression for up to seven days to help achieve effective edema reduction and helps heal the wound while skin stays dry and comfortable.

#### 1st Layer - Non Woven Padding

- **Stretchable** - simplifies application
- **Active Moisture Management** - keeps skin dry and comfortable
- **Customized Padding** - allows for anatomical adjustments and additional protection to sensitive areas

#### 2nd Layer - Short Stretch Bandage

- **Cohesive** - delivers consistent and reliable compression
- **Adjustable** - allows modification during application
- **Visual** - indicator offers simple and effective application of correct compression

# JOBST® Farrowwrap®

Adaptable and Affordable, Comfortable and Containing

JOBST® FarrowWrap® is for mild to severe lymphedema patients who need a cost-effective solution that can adapt if their limb volume changes. FarrowWrap® uses patented Elastic Short-Stretch™ technology that gives the benefits of bandaging without the hassle. FarrowWrap® is perfect for patients with fluctuating edema who have difficulty donning traditional compression stockings.

## JOBST® FarrowWrap® - Key Features

- Patented Elastic Short-Stretch™
- Easy handling with simple Velcro® Brand product
- Easily adjustable
- Variety of styles, sizes, and fabrics
- Custom, Ready-to-Wear, and Trim-to-Fit™
- Also used for vascular disorders and wound care

## Product Line

### FarrowWrap® CLASSIC

- The original FarrowWrap® material, clinically proven on thousands of patients
- Durable, rigid fabric with comfortable feel. Resists rolling or digging into skin folds
- Best suited for large skin folds and lobules
- 30-40 mmHg\* compression

### FarrowWrap® STRONG

- Premium fabric with robust compression and soft inner layer
- Will handle moderate skin folds and lobules
- 30-40 mmHg\* compression
- Easy to maintain

### FarrowWrap® LITE

- Low profile fabric
- Good choice for patients who have neuropathy or peripheral vascular disease (PVD)
- 20-30 mmHg\* compression
- Easy to maintain

### FarrowWrap® BASIC

- Value fabric with quality compression
- Removable Velcro® Brand product
- 30-40 mmHg\* compression
- Easy to maintain
- Each BASIC comes with a JOBST® FarrowHybrid®

### FarrowWrap® 4000

- Easy to don with just 4 bands
- Inner sleeve assists donning
- 30-40 mmHg\* compression
- Available in black or tan
- Each 4000 comes with a JOBST® FarrowHybrid®

<p><b>JOBST® Farrow GarmentGrip™ Roll</b> can be cut to size to fit the shape and contour of the body and Velcro® brand hook-and-loop fasteners can be added to secure in place. For triangular shaped legs, it is recommended to be worn over the legpiece to secure the wrap system in place.</p> <p><b>JOBST® Farrow Hand</b> is washable and therefore reusable. It is available for the upper and lower limb in differing roll lengths and extra wide widths and can also be used to manage mid-line edema.</p> <p><b>JOBST® FarrowWrap® Toe Caps</b> are available in 15-20 and 20-30 mmHg and are trimmable.</p> <p><b>JOBST® FarrowWrap® Glove</b> comes in 15-20 &amp; 20-30 mmHg and is trimmable.</p>					

**Ready-to-Wear (RTW)** are pre-made pieces to fit the majority of patient sizes. Most variants available on FP10/GP10.

**Custom-Made (CM)** means the pieces are manufactured to the limb measurements of each patient to provide a better fit for those limb shapes that do not fit within the RTW size range.

**Trim-To-Fit (TTF)** means one garment for active/reduction and maintenance treatment. Trim-To-Fit garment can be trimmed to adapt as extremity reduces. It can fit most patients in a single size.

# JOBST® FarrowWrap® Trim-to-Fit™

Trim-To-Fit™ compression garments can be customized to a patient's limb in a matter of minutes. Only one garment is needed during the decongestion phase since the garments are trimmable as the edema reduces.

## Trim-to-Fit™ Armpiece

## Trim-to-Fit™ Legpiece

## Trim-to-Fit™ Footpiece

\* Caution: This product contains natural rubber latex which may cause allergic reactions.

# JOBST® Elvarex®

## The Gold Standard

JOBST® Elvarex® represents the gold standard in custom daytime garments for the management of lymphedema. These flat-knit garments offer the very best in comfort and containment for even the most severe cases. With a natural rubber core\*, Elvarex® provides unsurpassed structure and control for patients of all shapes and sizes.

### JOBST® Elvarex® - Key Features

- Flat-knit structure bridges skin folds instead of working into them
- Latex core provides superior containment and allows garment to return to original shape for extended wear
- Excellent breathability for comfort and patient compliance
- Seven compression classes for optimal therapeutic outcomes
- Vast product assortment covers a diverse range of specifications and requirements of patients
- SPF 80 UV protection

# JOBST® Elvarex® Soft

## Gentle and Latex-Free

JOBST® Elvarex® Soft is the solution for patients wanting a softer, gentler compression garment. The latex-free, flat-knit fabric allows for easier donning and meets the specific needs of many elderly and pediatric patients, or patients with lipedema. While soft and forgiving, Elvarex® Soft still provides the containment that mild to moderate lymphedema patients need.

**LATEX

# JOBST® Elvarex® Soft Seamless

Soft and Seamless, Where it Matters Most

**LATEX  
FREE  
FORMULA**

JOBST® Elvarex® Soft Seamless combines all of the benefits of Elvarex® Soft with the seamless construction that patients want in a glove or toe cap. Not only are these flat-knit garments soft and latex-free, they are seamless, improving comfort by helping to eliminate potential irritation between the fingers and toes.

## JOBST® Elvarex® Soft Seamless - Key Features

- Soft, durable, and breathable flat-knitted fabric
- Flat edge finish at fingers and toes decreases bulk and prevents curling
- Easy to don, comfortable to wear

# JOBST® Custom Seamless Soft

Custom-made Compression Hosiery

JOBST® Custom Seamless Soft is a custom-made circular knit garment that looks and feels like hosiery. Appropriate for mild to moderate edema and vascular disorders, these garments wick away moisture and keep skin cool and dry. With Custom Seamless Soft, patients don't have to compromise on fit or style to wear medical grade compression.

## JOBST® Custom Seamless Soft - Key Features

- Multi-fiber double covered inlay yarns increase softness and improve donning
- Refined opacity covers blemishes and scars
- High stretch core yarns increase recoil (stretch and recovery) to prevent sliding
- Reinforced foot zones increase strength and durability with added comfort

# JOBST® Custom Seamed

## Nearly Limitless Solutions for Unique Challenges

JOBST® Custom Seamed custom-made garments were the first of their kind to manage lymphedema, and while much has changed in the past 70 years, our ability to find solutions to unique challenges has not. Custom Seamed garments are available for every part of the body and in countless configurations. Every garment is precisely cut and sewn by hand in Hickory, North Carolina.

### JOBST® Custom Seamed - Key Features

- Durable fabric for long lasting wear
- Precise gradient compression based on computer design
- Variety of options: zippers, linings, silicone bands and more

# Bellisse®

## Supporting Healing After Surgery

Bellisse® is uniquely designed to promote healing after breast surgery by providing uniform, gentle compression around the torso. Used in conjunction with JoViPads®, Bellisse® encourages drainage of edema in the chest walls, which can aid in recovery.

Bellisse® is exclusively distributed by JOBST®

### Bellisse® - Key Features

- Ready-to-Wear and available in a large range of sizes
- Unprecedented adjustability with both a front zipper for easy donning and a variable position back closure
- Attractive shape that can be worn comfortably day and night
- Soft to the skin, smooth while sleeping and unobtrusive under clothing
- Made of Polyester / Nylon / Spandex

# JOBST® SoftFit

Our innovative JOBST® SoftFit technology is a unique system of silicone yarns knitted into the welt of our compression garments. It provides gentle, seamless friction on the skin, decreasing the chance of constriction and slipping down.

## LOOKS GOOD, FEELS GOOD

With the SoftFit band, garments are not only visually appealing and more comfortable to wear, they provide precisely the right amount of pressure, right where it is needed.

## IMPROVED COMPLIANCE, IMPROVED QUALITY OF LIFE

Compression garments that feel comfortable lead to greater patient compliance.

## MORE OPTIONS, HAPPIER PATIENTS

SoftFit Technology is offered in a wide variety of compression garments and styles.

# Functional Zones for JOBST® Elvarex® & Elvarex® Soft

Unique and innovative Functional Zones are created by the use of technologically advanced knitting techniques and specialized yarn selection. Functional Zones increase patient comfort through increased flexibility and breathability, without compromising medical effectiveness.

## JOBST® Elvarex® Functional Zones

- Use of highly specialized yarn and knitting techniques.
- More comfortable wearing due to increased breathability and flexibility.
- Special zones combat wrinkling when bending and speed moisture dissipation.

### Functional Zone "Bias top end"

Available in:  
• All compression classes  
(CCL 1-2 Forte)

### Functional Zone "Elbow Comfort Zone"

Available in:  
• CCL 2  
• Exception: not available  
for "single piece hand/arm"

### Functional Zone "Pressure Pant Elvarex® (body-bandage)"

Available in:  
• Body bandage: CCL 1-3 Forte  
• Corresponding leg stockings available in all CCL (1-4 Super)

### Functional Zone "Top Comfort Zone"

Available in:  
• B'G, BG, CG, AG, AT  
Pressure pant Elvarex®  
(body bandage),  
Bermuda, Capri  
pants, stump  
stockings (ST)

### Functional Zone "Knee Comfort Zone"

Available in:  
• CCL 2-3

### Functional Zone "T-Heel"

Available in:  
• CCL 2-3 Forte

### Functional Zone "Slant Foot"

# JOBST® Relax

## Redefining Lymphedema Night Care

JOBST® Relax is the revolutionary nighttime garment that is designed for more than just sleeping. Its spacer fabric technology is unique in the marketplace and creates a supremely lightweight, flexible, and slim-line garment. Relax brings exceptional quality of life benefits and style to patients with mild to moderate lymphedema through the use of advanced knitting techniques and CoolMax® yarns. Because Relax is so breathable and flexible, patients can remain compliant through the evening hours without diminished dexterity or comfort.

### JOBST® Relax - Key Features

- Custom-made, flat-knit technology provides consistent, gradient compression therapy and stays in place
- Textured surface and monofilament spacer combine to create differential pressure areas that stimulate lymph flow while a patient is at rest
- The integrated zipper option with stay-down puller helps facilitate donning and doffing. The fabric underneath the zipper protects the skin and promotes uniform compression.

## Custom Arm Sleeve Styles

## Custom Leg Styles

For more information or to order JoViPak products, please visit [www.jovipak.com](http://www.jovipak.com), call 866-888-5684, or email [info@jovipak.com](mailto:info@jovipak.com)

# JOBST® JoviPads

JOBST® JoViPads can be used in any area where there is a need for softening fibrotic tissue, providing pressure equalization, filling an anatomical indentation, or adding protection between skin folds.

## JoviLiner Arm

Extends from the Distal Interphalangeal Joints (DIPs) to the axilla with stitching between each finger. Liners to be used under short stretch bandaging or pump appliances.

## JoviLiner Leg

Upper Leg has Continuous Flow Channels from below the knee to the groin; Lower Leg from the tip of the toes to the knee; Full Leg from the tip of the toes to the groin. Liners to be used under short stretch bandaging or pump appliances.

# JOBST® JoviPitPaks

JOBST® JoViPitPaks are filled with sterilized cherry pits and were specially designed to help address more difficult areas of fibrosis. These are an aggressive type of therapy and should only be undertaken with close therapist supervision.

# JOBST® Donning Aids

## JOBST® Donning Gloves\*

Putting on JOBST® compression garments is always easier with JOBST® Donning Gloves! They help create friction, provide grip and help to evenly distribute the fabric on the leg.

## Dycem®

This 8" x 11" Dycem® is placed on the floor or table top to provide a non-slip surface the patient can push against as they don either an arm or leg garment. Dycem® can be easily cleaned with soap and water to renew its non-slip surface.

## JOBST® Stocking Donner

Easy to use device to help apply JOBST® compression garments. Ideal for people who have limited dexterity or have difficulty reaching their feet. Use with closed and open toe styles. Available in 2 sizes: Regular and Large Calf.

## Easy-Slide®

Easy-Slide® donning aids are for upper and lower extremity garments that do not have stitched fingers or closed toes. This donning aid can be very helpful for patients with tenderness or weakness in their donning limb and are not strong enough to don the garment by themselves.

## Stocking Slip

For use with open toe styles only. Helps the stocking slide smoothly onto the foot by reducing friction between the patient's skin and the compression stocking.

## JOBST® Easy Wash & Wear Kit

Everything needed to help apply and extend the life of JOBST® compression garments. Kit includes JOBST® Donning Gloves, Wash Bag, Jolastic® Washing Solution, and brochure with helpful hints for putting on JOBST® compression garments.

## Accessories

### Jolastic® Washing Solution

This warm water wash is formulated to remove soil, body oils, and skin salts quickly and thoroughly without damaging fabric. Jolastic® Washing Solution will help extend the life of JOBST® garments.

### "It Stays!"® Roll-on Body Adhesive

Designed to keep JOBST® Hosiery in place. Ideal for thigh high lengths that do not have a silicone band or when a garter belt is not an option. Helpful Hint: Apply vertical strips for best results.

### Foot Rest

A convenient device to use when measuring for Ready-To-Wear or Custom-made garments. The Foot Rest elevates the patient's foot comfortably at the heel to allow easy measuring up the length of the leg.

\* Caution: This product contains natural rubber latex which may cause allergic reactions.

# JOBST® Educational Resources

Schedule a Virtual In-Service with us and learn all about JOBST® products! Whether you are new to JOBST® or a longtime friend, we are dedicated to educating about lymphedema and how our products are a crucial part of decongestion and maintenance. Earn 1 Continuing Education Unit (CEU) for 1 hour of participation.

All you need is a computer with audio and a desire to provide the best products to help your patient's manage their lymphedema. With your input our technical advisors will customize the presentation to your needs and your schedule.

To sign up for a Virtual In-Service either call 866-888-5684 or go to [www.jobst.com](http://www.jobst.com).

The JOBST® Compression Institute serves as a resource for healthcare providers and clinicians seeking further education about vein diseases and lymphedema. This website provides literature, videos, and links to our national affiliates. Additionally, the JOBST® Compression Institute offers a variety of nationwide workshops and continuing education classes to train you on JOBST® products and proper measuring and fitting techniques. Up to 9 hours of CEU credits available. Register at <http://www.jobstcompressioninstitute.com>.
