# Lymphedema and lipedema syndrome – “Thinking outside the box”

Dear colleagues

Dear friends of lymphology!

After the great success of the 1<sup>st</sup> Földi Clinic Days, we are delighted to welcome you to the 2<sup>nd</sup> International Földi Clinic Days in 2025.

Our aim is to make this symposium even more international and diverse. Therefore, on these two days we will not only rely on the knowledge of renowned speakers from Germany, but also internationally recognised experts from Europe, the USA and Australia.

Each speaker will present their knowledge in an engaging and understandable way, always with a clear focus on practical relevance. For the presentations in German, our experienced team of interpreters will ensure that no information is lost – not even during the subsequent Q&A and discussions.

A special highlight on Saturday afternoon is the opportunity to visit the Földi Clinic, the European Center for Lymphology, as part of a guided tour of the clinic. For all those who would like to deepen their knowledge, we offer practical hands-on, interactive workshops on exciting topics which will also be held bilingually where possible.

An important aspect of the 2<sup>nd</sup> International Földi Clinic Days is to look beyond the boundaries of our specialist field. We would like to encourage you to question common assumptions and introduce you to unconventional and creative perspectives that will enrich your professional life.

We look forward to welcoming you to the beautiful Black Forest, the cradle of academic lymphology.

With best regards

Yours

Dr. med.  
Tobias Bertsch

Guenter Klose  
CEO Klose-Training
